Inclement Weather Procedures for Medical Students:

Although the KUSM-W campus does not close for inclement weather very often, it's always important for students to know the policy as far as rotations are concerned.

Even if the campus is closed, students are not necessarily excused from their clinical responsibilities. Each Clerkship Director will make the decision whether to require students to attend teaching rounds and other clinical responsibilities. Clerkships will contact students.

How to determine if the campus is closed due to inclement weather:

The Wichita Campus will use the RAVE Alert Messaging System for emergency notification to faculty, staff, employees, residents & students.

Department of Public Affairs will report delayed opening of the school or curtailment of medical school operations to television channels 3, 10 and 12 and KFDI FM 101.3 and KLIO AM 1070.

There will be an alert message posted on the school website home page at wichita.kumc.edu.

KUSM–W inclement weather hotline (293-3888) to hear instructions concerning the school status.

If you have any questions, please contact ASA at 293-2603.
