

Project Butterfly

Working to empower individuals who have been sexually exploited or trafficked.
Services are free and 100% confidential.

What is Exploitation?

Exploitation occurs when one person abuses another for their own personal gain. Forms of exploitation (trafficking) include prostitution, stripping, escorting, pornography, forced partnership, or facilitating the use of a child for sexual services. These can happen through the control of a pimp, family member, or as a form of survival.
