This week is Introphase, and while it may look a lot different this year, it’s still an exciting time for our incoming third-year students.

Students who attended KUSM-W during their first and second years of medical school are joined by those who are finishing their final two years in Wichita.

Welcome (or welcome back) to everyone in the Class of 2022!

**The walk must go on**

Although it can’t be an in-person event this year, the 2020 Wichita Heart Walk is still planned for Saturday, June 13. This year’s event will take place virtually, so wherever you are that day, lace up your shoes and walk or run in support of the American Heart Association.

To increase the spirit of community, take photos or videos of yourself and friends or family participating and share them on Facebook using #HeartWalkICT.

KU School of Medicine-Wichita is once again participating as a Heart Walk team. You can join the team as a fundraiser or donate to the team.

To join us, register using the “Join a Team” tab. Choose KU School of Medicine-Wichita from the drop down menu of “Choose an existing team.”

If you’d just like to donate to our team, choose the “Donate” button and search for a team using KU School of Medicine-Wichita.

Contact wichitaheartwalk@heartwalk.org with questions or to learn more.
Tell us your stories!
Is there a special event happening in your department? Do you know a student who has an interesting hobby, or who has made a significant accomplishment? Are you involved in community outreach? An educational program? A hands-on workshop or training session?

Public Affairs wants to know about any and all of these events. There are a variety of ways we can publicize events and accomplishments in the school, but we can’t promote them if we don’t know they’re happening.

Though not every event is going to catch the attention of the media, we can still promote your event through one of our social media accounts, our monthly community newsletter or by writing our own feature story for the school’s website. Drop us an email and tell us what’s happening. We’ll share the good news!

How can we help?
All of us here in Public Affairs are available to assist you in a number of ways when it comes to communication, public relations and marketing.

Need something edited or proofread? We can do it. Have a speech to write? We can help. Need a flyer designed? Let us assist you.

We can also answer questions you may have about branding, including logo use. As you may know, there are specifics when it comes to that area. If you have a project that is using a logo, run it by our office and we’ll help keep you out of trouble.

Basically, contact us for any old thing. We’ll do our best to help you out.

wicpa@kumc.edu

Virtual town hall
The next KUMC town hall is from 3-4 p.m. Thursday, May 28, and will take place via Zoom. Send your questions in advance to FAQ@kumc.edu. Closed captioning will be available. Updates on COVID-19 and the next wave of campus repopulation will be provided.

The first 3,000 participants will be able to join via Zoom. A link will be sent via a calendar appointment. Once you join, please keep your microphone on mute unless you want to ask a question. This will help reduce feedback and other noise disruptions.

How to ask questions
Zoom participants can ask questions via Chat, using their microphones or emailing FAQ@kumc.edu. The speakers will do their best to answer as many questions in the time allotted.

A recording of the town hall will be posted on the intranet the next day.

Save the date!
The 2021 JayDoc Community Clinic Awards Banquet will be March 20, 2021. Location TBD.
Personal & Professional Development Corner

This is what happens when you reply to spam email
by James Veitch (9 minutes, 48 seconds)

Suspicious emails: unclaimed insurance bonds, diamond-encrusted safe deposit boxes, close friends marooned in a foreign country. They pop up in our inboxes, and standard procedure is to delete on sight. But, what happens when you reply? Follow along as writer and comedian James Veitch narrates a hilarious, months-long exchange with a spammer who offered to cut him in on a hot deal.

Aflac open enrollment
KU School of Medicine-Wichita is offering guaranteed-issue Aflac Group Disability, Group Critical Illness and Group Accident during open enrollment, now through June 15. See flyer for details.

Enroll now!
Username: Last five digits of employee ID
Password: KUMC2020

Contact Terry Burnett at 316-788-2212 or terry_burnett@us.aflac.com with individual questions or to set up a meeting via web platform.

Have questions for HR related to COVID? Contact us by phone/email or check out the FAQ page.

Workday important dates
Starting June 2: Computer-based Workday training on numerous topics will launch on June 2. Training includes computer-based training videos in the campus learning management system, Saba and access to the Workday job aids library. Employees will receive an initial email when they are enrolled in one of the core curriculum that applies to all employees.

June 27: Last day for managers to approve hours worked and absences. Hours worked/absences on/after June 28 need to be manually tracked by the department and entered in Workday after it goes live.

July 1: Go live!
You can access the Workday site in the meantime to see the progress!

Vacation accrual blackout period reminder
For those who have already accrued 22 days of vacation this fiscal year (beginning with the first pay period in July 2019), you will not accrue vacation for the final four pay periods of the current fiscal year ending June 30. You will resume accruing vacation with the first pay period in July.
Meet the 2020 Innovation Award honorees

For all the latest news stories and press releases about KUSM-W, visit our news page.

Community Conversations
A casual forum for students, faculty, residents and staff to share diverse insights on various topics of interest to our community. Session are noon-12:45 p.m. Thursdays via Zoom from Kansas City (links will be sent via broadcast email).

First Thursday: Turning the Page
Second Thursday: Culture Hour
Third Thursday: Sustainability
Fourth Thursday: Health & Wellness
Fifth Thursday: Crucial Conversations

For more information, contact Alexa Smith at 913-588-1480 or asmith5@kumc.edu.
Employment anniversaries
Congratulations on your employment anniversary. We’re glad you’re here!

Welcome to KUSM-W

Heather Merriman
Medical assistant, Gastroenterology
KU Wichita Center for Health Care

DeeDee Yount
Scheduler/receptionist
KU Wichita Center for Health Care
Rami Diab, M.D., third-year resident, Internal Medicine, and his faculty mentor, Mohinder Vindhyal, M.D., M.Ed., assistant professor, Internal Medicine, presented "Meta-analysis of safety of granulocyte macrophage colony-stimulating factor for treatment of rheumatoid arthritis" at the American College of Physicians 2020 Virtual ePoster Competition. The poster was selected as a winner in the resident/fellow category.

Poster printing
Need a poster printed? Send it as a PowerPoint slide (preferred) or Adobe PDF to kuposters@kumc.edu with size requirements and date needed. Please note: poster should be sized to specifications before it is sent; we will not resize or trim posters.

Posters should be sent for review to Public Affairs at wicpa@kumc.edu before printing to ensure that branding guidelines are met. Please have PowerPoint/PDF files to us at least 48 hours in advance.

Kansas Journal of Medicine
Congratulations to the authors in the latest publication of the Kansas Journal of Medicine.

Wanted: Research study participants

Many research opportunities are available. To make a referral into a clinical trial for ALS, adolescent/adult depression, personality disorder or Alzheimer’s, call 316-293-1833 or email clinicaltrialunit@kumc.edu.

More information and a study interest form can be found on our website.

KU Wichita Center for Clinical Research is conducting a research study for children and adolescents with major depression disorder (MDD). Volunteers may be eligible to participate if they are 7-17 years of age and have been diagnosed with major depressive disorder.

Participants and their parent/caregiver will attend 13 appointments over 18 weeks. There is an extension study available for these participants. If the medication is helping the participant’s depression, the medication will be provided for an additional 24 weeks. Study participants will be compensated for their time and travel. For more information, call 316-293-1833.

KU Wichita Center for Clinical Research is looking for adults (ages 18-80) who have been diagnosed with major depressive disorder (MDD) for at least 12 weeks and have failed 2-5 trials of antidepressants or psychotherapy in the current major depressive episode.

The study lasts 12 weeks with eight office visits and pays $50 per visit. If you are interested or want more information, please call 316-293-1833 or email lchrisman2@kumc.edu.

KU Wichita Center for Clinical Research is looking for adults (ages 50-90) with mild Alzheimer’s interested in investigational IV medication. Need to have caregiver/study partner.

The study lasts 18 months and both participants will be compensated for time and travel. If you are interested or want more information, please call 316-293-1833 or email clinicaltrialunit@kumc.edu.
Multifactor authentication

To defend against increasingly sophisticated cyberattacks, KU Medical Center will soon be implementing multifactor authentication (MFA) across various systems.

MFA provides an additional layer of security, which requires you to confirm your identity using multiple sources, such as a username and password, combined with a numerical code or notification sent to your phone. MFA uses something you know (a password), along with something you have (your phone) to secure your account and prevent unauthorized access. You may already be familiar with a type of multifactor authentication if you’ve used a debit card. A debit card uses a form of MFA, as it requires something you have (the card) along with something you know (your PIN) to authorize a purchase.

KU Medical Center has selected Duo as our multifactor authentication tool. Duo MFA will be implemented in a phased rollout across various systems over the coming months. Some systems that will require MFA include: remote access, Outlook on the web, Workday, and other specific high risk or critical applications and systems. You will be notified in advance when each system is setup to require MFA.

In preparation for multifactor authentication, it is recommended you set up your mobile device ahead of time, so you’ll be ready as MFA is enabled across KUMC systems. To setup MFA on your account, please have your mobile device available and, from a computer or secondary device, visit the MFA self-service site. During setup, you will be asked to download the Duo app from your device’s app store and, within the app, take a picture of a QR code to register your device. Please note: Do not visit the MFA self-service site using your device that has the Duo app installed. You must launch the MFA self-service site from a computer or secondary device to properly set up MFA.

If you’d like help setting up MFA on your account, contact Wichita IT for assistance or use this video walk-through of the process.

Setting up MFA on your account ahead of time will not require you to immediately begin using MFA; it will only prepare you for when MFA is enabled and required on each system. If you do not setup MFA on your account ahead of time, it could present a stressful situation when you attempt to login to a system that has MFA enabled.

More information about multifactor authentication, the Duo app and FAQs can be found on the MFA website. Please note: the KC campus’ contact information is provided on that page, but if you have any questions, please reach out to Wichita IT directly.

Please contact Wichita IT with any questions or concerns at 293-2605 or itswichita@kumc.edu.
Volunteers needed for diabetes research

If you
- are African-American,
- are 16 or older,
- and have been diagnosed with type 2 diabetes
you may qualify for our research study.

Volunteers who qualify will be asked to participate in a diabetes problem-solving website. Duration is no longer than 90 minutes. Participants will be compensated for their time.

If you are interested or want more information, contact Michelle Redmond, Ph.D., at 316-293-1813 or mredmond@kumc.edu.
YOU MAY BE ELIGIBLE to participate in a new program and research study called eMOMS™ — electronic Monitoring of Mom’s Schedule — that supports healthy weight and breastfeeding after pregnancy.

YOU MAY BE ELIGIBLE IF YOU ARE:
• Age 18 or older and speak English
• Less than four months pregnant
• Overweight or obese before pregnancy
• Interested in breastfeeding your baby
• Wanting to learn more about nutrition and exercise
• Have a cellphone and internet access
• Able to use Facebook

eMOMS™ includes an online program where you will be able to access information and professional support anytime, anywhere.

PARTICIPATION IS FREE OF CHARGE. You will receive FREE mom and baby care products throughout the eMOMS™ program!

To learn more about eMOMS™, please contact Lisette Jacobson, Ph.D., assistant professor, at ljacobson@kumc.edu, or Meredith Lucas, research assistant, at mlucas4@kumc.edu, or visit the website. If you are interested in participating in eMOMS™, scroll down to the bottom of the website and click on the link “Do I qualify for eMOMS?”

The remaining campus yoga sessions have been canceled until further notice.

If you have questions, please contact Samuel Ofei-Dodoo, Ph.D., assistant professor, Family & Community Medicine, at sofeidodoo@kumc.edu.
