March Final Friday exhibit at the KU School of Medicine-Wichita

WICHITA, KAN. – “Mixed Media,” an exhibit by George Lucas, M.D., will be displayed at a March Final Friday event at the KU School of Medicine-Wichita, 1010 N. Kansas. The event will be open from 5-7 p.m. Friday, March 30.

Dr. Lucas has been drawing and painting since he was a boy. Since retiring from the practice of hand surgery, he devotes more time to his art, including the publication of two books, “Appalachia Boy” (available on Amazon) and a coffee table book, “Art in Medicine and Orthopedics.”

The exhibit will be displayed and open to the public through May 31, in the William J. Reals Gallery of Art-East.

The University of Kansas School of Medicine-Wichita educates tomorrow’s physicians and health care leaders through community partnership. We doctor Kansas.
