New art exhibit at the University of Kansas School of Medicine-Wichita

WICHITA, KS. –“**PLANTS AND FLOWERS III,**” is the title of the next art exhibit by Donald Vine, MD, **April 7 – May 30, 2008**, in the William J. Reals Gallery of Art-East, at the University of Kansas School of Medicine-Wichita, 1010 N. Kansas. The exhibit, which is free and open to the public, will consist of 15 photographs.

The exhibit marks the third time that Dr. Vine has shown his art at the medical school. He said flowers are almost always pretty and the closer you look the more you discover gardens within gardens. Vine describes himself as a photographer, not a painter, whose goal is to capture a certain quality and share it with others.

The University of Kansas School of Medicine-Wichita is nationally recognized as a pioneer in community-oriented medical education. Since the first class graduated in 1975, 1,504 physicians have earned medical degrees. About half of these eventually established practices in the state, fulfilling KUSM-W’s promise of “Educating Doctors For Kansas.”
