**Childhood anxiety is the next Live and Learn Lecture topic at the  
University of Kansas School of Medicine-Wichita**

WICHITA, KS. – **Russell E. Scheffer, MD**, chair and professor, Psychiatry and Behavioral Sciences, will present: “Childhood Anxiety: Symptoms and treatment,” during the **Live and Learn Lecture from 11:30-1 p.m., Tuesday, May 13, in the Sunflower Room, at the University of Kansas School of Medicine-Wichita, 1010 N. Kansas**. The lecture is free and open to the public, but reservations are requested by calling University Relations at (316) 293-2643. Attendees may bring a lunch. Snacks and beverages are provided.

Dr. Scheffer, a national and international presenter, received his MD from the University of Kansas Medical Center and is board certified by the American Board of Psychiatry and Neurology. He has received licenses to practice medicine in seven states, including Kansas. His research interests include psychopharmacology; bipolar disorder; psychotic disorders; ADHD; depression; pharmacogenomics; and neuroimaging.

The University of Kansas School of Medicine-Wichita is nationally recognized as a pioneer in community-oriented medical education. Since the first class graduated in 1975, 1,504 physicians have earned medical degrees. About half of these eventually established practices in the state, fulfilling KUSM-W’s promise of “Educating Doctors For Kansas.”
